

# Prestige™ Comfort Systems

## SET YOURSELF APART

For the industry's best contractors that want to set themselves apart, there's Prestige™ Comfort Systems. Prestige is the world's first high-definition, full-color thermostat that redefines how a thermostat can look and what a thermostat can do. There's simply nothing else like it..

Wireless Outdoor Sensor

Prestige Comfort System

Portable Comfort Control

## The Cool Factor

LIKE NOTHING YOU'VE EVER SEEN

- **Simple Touchscreen Technology** — no hidden doors or complex buttons
- **High-Definition, Color Display\*** — visual clarity of the display is 3 times better than typical thermostats
- **Graphics** — uses a graphical user interface to display information in a way that's easy to understand
- **User Friendly** — consumers rated up to 10 times easier to use than other thermostats
- **Tri-Lingual** — English, Spanish and French installation and display options
- **Temperature Control On-Demand** — sense and remotely adjust temperature from anywhere in the home
- **Added Information** — outdoor temperature and humidity displayed on screen

\*Available in HD-High Definition (color) or SD-Standard Definition (black/white).

## The Brains

MORE THAN JUST A PRETTY FACE

While Prestige thermostats are wired, they are enabled with RedLINK™ Wireless Technology inside — you can offer endless possibilities for controlling and monitoring comfort with

Honeywell system enhancements like the Portable Comfort Control, Wireless Outdoor Sensor and TrueSTEAM™ Humidification System.

## Elegant Simplicity

# Prestige™ Comfort Systems

## FOR THE INDUSTRY'S BEST CONTRACTORS — THERE'S PRESTIGE

Prestige is the world's first high-definition, full-color thermostat that redefines how a thermostat can look and what a thermostat can do. There's simply nothing else like it.

### The Simplicity

#### INSTALLS IN MINUTES, PROGRAMS ITSELF

Prestige's patented, interview-based setup screens use natural language to ask questions like "How many stages of heating are you running?" to guide installers through setup with no need for an installation manual. The same interview process is used for homeowner setup. After answering the questions, it programs itself — so they don't have to.

And if you do have a question, simply press the HELP button. The on-board manual gives definitions and directions for every screen.

User-Friendly Questions

Simple Setup

On-Screen Help

### The Convenience

#### DOWNLOAD AND GO

After installing Prestige for a specific type of equipment, simply download the settings to a standard USB drive and transfer them to all future jobs where you use Prestige with the same type of equipment. It's that easy. The same USB drive can be used to upload your full-color business logo on the screen for customization of service reminders, giving homeowners on-screen access to you.

#### WIRELESS HUMIDITY CONTROL

Increase homeowner satisfaction with Prestige by controlling both temperature and humidity with one control. Homeowners will appreciate having only one control on their wall just as much as they'll like using the sliding humidity scale on the Prestige Comfort System. And because it communicates wirelessly to TrueSTEAM™ humidifiers, you'll have faster installation without pulling new wires to the thermostat.

# Prestige™ Comfort Systems Application

With the perfect combination of engineering, high-resolution graphics and simple setup, Prestige redefines what a thermostat can do. See for yourself.

## 1 PRESTIGE THERMOSTAT

- Use as few as four wires\* to install Prestige to the desired location in the home
- Prestige is wired, but RedLINK™-enabled to communicate with other RedLINK-enabled devices in the home

## 2 WIRELESS OUTDOOR SENSOR\*\*

- Installs wirelessly with two simple screws and a touch of a button
- Displays outdoor temperature and humidity on Prestige and the Portable Comfort Control
- Features weather-resistant cover and lithium batteries for reliable performance in any climate
- Up to a 5-year battery life

## 3 PORTABLE COMFORT CONTROL

- Easily connects with the touch of a button to communicate and work with Prestige
- Gives homeowners the freedom to sense temperature and make adjustments from any room in the home
- Displays outdoor temperature and humidity when used with the Wireless Outdoor Sensor\*\*
- Can be paged if lost through an audible noise from Prestige

## 4 WIRELESS HUMIDITY CONTROL

- Use a RedLINK-enabled TrueSTEAM™ Humidification System with a Wireless Adapter to communicate and control humidity from Prestige without running new wires to the living space. Prestige also controls whole-house dehumidifiers like the Honeywell TrueDRY™.
- Communicates with Wireless Outdoor Sensor to automatically control humidity to proper levels

\*With WireSaver module

\*\*Standard in all Prestige Comfort System Kits
